[Xara Web Designer MX Premium 8.0.0.21461 Crack](#)

The screenshot displays the Xara Web Designer MX Premium software interface. The main workspace shows a demo website with a green header and a 'Read Me First' section. The 'Designs gallery' panel on the right shows various design templates. The status bar at the bottom indicates '1 text cursor (0 characters, 0 words) on layer MouseOff:'. Below the screenshot, there is a promotional banner for Xara Web Designer MX Premium, featuring a smaller screenshot of the software and the text 'WEB DESIGNER MX PREMIUM'. The banner also includes a 'DOWNLOAD' button and a 'FREE FROM HERE' button.

Xara Web Designer MX A demo website
Read Me First
This is a short tutorial, and a working website document you can experiment on. If you're reading this in Web Designer then feel free to experiment and explore the features of the program. If you're reading this as a web page, then this is an example of the type of website you could be producing with Xara Web Designer.
This is how to create a great looking website in 6 easy steps:
1) Open the Designs Gallery and select a design
OK we don't actually need to do this because this document is already open. It's based on the template design called 'Free Example' in the Website Template Themes folder. You can see all the templates available when you purchase the product) by moving your mouse over the 'Designs Gallery' label on the right side of the window.
Preview your website: Select File -> Preview Website or just click this icon on the top bar. There are two similar buttons. The first previews just the current page (quickest) the other previews the whole website. Try it now to see what this website looks like in a web browser.
In the Preview window you can click on the buttons for the other pages of the website, such as the photo above.
2) Edit the Theme Colors
WWW.THEJINNI.BLOGSPOT.COM
Page 1 of 5 (index)
Xara Web Designer is unlike any web design software you will have seen before; an easy template based solution that gives you total page design freedom, no HTML skills required. Comes in 2 versions, Web Designer and Web Designer Premium; Premium offers advanced web design features.
